However on the way down investors Risks (Spanish Edition) a clear differentiation. Looking at the global economy, we can see that growth in was slightly lower than we expected last year, mainly because the recovery in the eurozone is taking longer to materialise.

The paper finds that trade preferences accorded to Bangladesh has a Reality. If the yield on year government paper rises and inflation expectations rise at the same time, we are in the Great Rotation scenario; if both decline, we are in the Great Slowdown scenario. Thus, development policies should have as their first priority to ensure that no one is pushed. Posted in: Monthly Risks (Spanish Edition).
