It's the problem of making a copy of a copy. While very important and exciting, this large scope and far-reaching ambitions may create a dissonance with ground-level research and education. A great story with a real poodle-fucker of an ending feels like a let-down and can take a whizz all over the rest of the story.

You can see the most recent winner's video here: [back to top Regular Short Story](#)  
As far as I know, Melusina was unfaithful to Nedlinger with only one other man, despite all the innuendo and gossip. I list some non-fiction competitions on this page which might be appropriate. It is to be writer voted i.  
In this case, information technology does not only help manage, visualize and

on the Web. Likewise, most locative narratives function by connecting discrete narrative moments to specific points on the grid, such that audio clips or text lexia are activated whenever a user reaches a particular location.
