The fused mixture poured relatively well; however, it was necessary to periodically scrape an unfused dross of ashes and alumina from the surface. This means increased demand for silver drives up the mining for other metal commodities. Given that silver is used for several different things, recycling it is very important. Related Posts. Other common markings are 14k and 10k. Here's a list of places to look to find gold. Copyright-Greg Valerio. We use cookies to ensure that we give you the best experience on our website.
